## Staging the Classics - Agamemnon,

### the Oresteia, and Greek Tragedy

SPEAKER: Andy HINDS Artistic Director of Classic Stage Ireland

with **LIVE performances** by acclaimed actors of CSI!

( AGAMEMNON runs in the Project Arts Centre 16-31-March 2012)

*The Oresteia* is the only fully intact Ancient Greek trilogy to survive and is widely considered to be one of the greatest achievements of Western culture.

The Oresteia trilogy consists of Agamemnon, Libation Bearers and Eumenides. It is the seminal text of Greek theatre becoming a classic soon after its first performance in 458 B.C.

Following its presentation of Agamemnon, CSI will complete the trilogy later this year with a staging of the two concluding parts, to mark the first professional presentation of trilogy for the Irish stage.
